

Scanner Implementation Program

At Imaging Solutions, we feel that no scanner sale is complete until the installation is accomplished, the system is functioning and the proper training has been provided to ensure long term satisfaction. We call this process our Scanner Implementation Program.

About Us

Imaging Solutions is a solution provider of Enterprise Content Management (ECM) systems utilizing software, scanners and storage devices to control image, data storage and workflow functions.

Our Services

Our services include:

Contact Us

Would you like to learn more about our Scanner Implementation Program and what Imaging Solutions can do for you?

Contact us at 888-230-4624.

The Scanner Implementation Program includes:

- Scanner selection consultation to ensure the scanner you purchase meets your needs and is part of your Enterprise Content Management plan. We offer scanners from a variety of scanner manufacturers.
- Scanner configuration support to ensure that the correct interface cards and cables and appropriate scanning software are selected. Operating systems compatibility and environmental requirements are considered.
- Coordination of the installation process to ensure that all parties are aware of delivery schedules, installation times and any necessary training is scheduled.
- Free phone support (30 minutes to two hours, depending on the scanner model) to assist you in the installation process.
- Advice to ensure that the scanner operators understand the proper way to run, clean and maintain their scanners including warranty options and consumables.
- The ECM Advisor, our monthly newsletter about Enterprise Content Management that includes helpful hints on how to maximize the productivity of your scanner and your scanning process.

Imaging Solutions is an Authorized Reseller

Here are some of the scanner brands we offer:

To ensure your scanner runs efficiently in the future, we offer a wide variety of maintenance kits, rollers and other scanner consumables and supplies.

If you are nearby, we can also make arrangements to travel from our office in central Connecticut to your location to assist with the scanner and imaging system implementation.

Contact Imaging Solutions and we will help you select the right document scanner solution for your business needs.
